

MS203

E2/G2/L2

The Maxam MS203 is a premium non-directional pattern E2/G2/L2 tyre designed to maximise traction in soft underfoot conditions. Ideal for use on graders, loaders, and earthmovers.

- An all-steel radial tyre construction maximises traction and flotation.
- A wear and cut resistant tread compound ensures excellent durability and puncture resistance.
- An advanced, self-cleaning tread design ensures optimal traction and prolonged tread life.
