

# MAXXIS®

# BIGHORN 2.0 MU09/MU10

A lighter-weight version of the original, the Bighorn 2.0 is designed to provide optimal comfort and traction in intermediate, soft-terrain and sand applications.

## FEATURES & BENEFITS

- ✓ Radial construction offers a significantly smoother ride over rough trails
- ✓ Perfectly suited for hard-pack, intermediate, soft terrain & sand applications
- ✓ Durable 6-ply construction provides enhanced durability and puncture resistance
- ✓ Non-directional pattern enhances predictable cornering and stability
